DID YOU SEE THE NEW ADDITION IN THE PARK?

Bob's Library made its appearance in the park during the Chili Cook-off.

The little library is dedicated to former treasurer Bob Barcheski. Bob was a long time Berkeley Grove resident who passed away

unexpectedly late November 2020.

A new neighbor, Harrison Custer, approached one of the board members about his desire to build a little library for the park. Harrison is a skilled craftsman who owns Custer Construction. Harrison donated the materials and labor and presented the library at the Chili Cook-off on October 30, 2021. **Thank you Harrison!**

Bob's daughter, a former resident in the neighborhood, attended the event and remarked that her dad loved to read. What a great way to remember Bob and his 20 years of service to our neighborhood.

The board plans to conduct a formal dedication in the spring. In the meantime, please add some books and borrow some books from Bob's Library at the park.

5G TOWER UPDATE....

Verizon Wireless has officially re-started the process of submitting permits for 5G small cell structures in Fishers. The City is actively working with HOA's and property managers to meet with Verizon Wireless to provide feedback regarding the proposed locations of the 5G structures. The BG Board and concerned residents participated in a conference call on October 27, 2021 voicing concerns for this project going forward. While it was noted that Berkley Grove is not in favor of the 5G small cell structures, these proposed structures will be constructed in the utility easements. They will be black and have two lights. No timetable is available at this time. The Scheduled Resolutions for Board of Public Works and Safety will be presented December 13, 2021 for several neighborhoods including Berkley Grove.

PARK IMPROVEMENTS

Thanks **Dave Jacocks** for making arrangements for the recent improvements to the Park AND to all his helpers that made it happen!! New timbers and expansion of the mulched area looks great. More improvements are planned for the Spring!
